GIOVANNI

The GIOVANNI mattress embodies the finest innovations for healthy sleep, based on an independent spring system.

The outer cover is made of ultra-comfortable “Memory Sensitive” knitted fabric, which gently embraces the body and adapts to your contours, creating a soothing “hug effect.” The fabric’s volumetric quilting gives the mattress a stylish appearance and a luxurious feel.

On one side, the structure features delicate “Super Soft” foam and elastic “Soft Elastic” foam, providing both softness and reliable support. The other side combines “Normal Soft” and “Soft Elastic” foams. These dual-sided variations allow you to choose between a soft or extra-soft sleeping surface.

Natural insulating filters placed between the layers ensure optimal ventilation and maintain the mattress’s hygiene.

At the heart of the mattress lies the independent “Pocket Spring” system, which provides personalized support for every part of the body. Additional “Aerofabric” layers enhance air circulation and help maintain an optimal sleeping temperature.

The mattress is also complemented with natural latex “Oeko-Tex”, adding resilience and anatomical precision. For added convenience, the mattress is equipped with side handles, allowing easy movement and flipping without extra effort.

FRANKOF

IS SUITABLE FOR:

Brie	Capri
Brie Classic	Kobo
Brie Slim	Komo
Bari	Rhone
Bata	
Bata XI	
West	
Naples	

IS NOT SUITABLE FOR:
