MODEL FEATURE

1. Rounded corners add charm to the home and spark curiosity and imagination in their little owners.

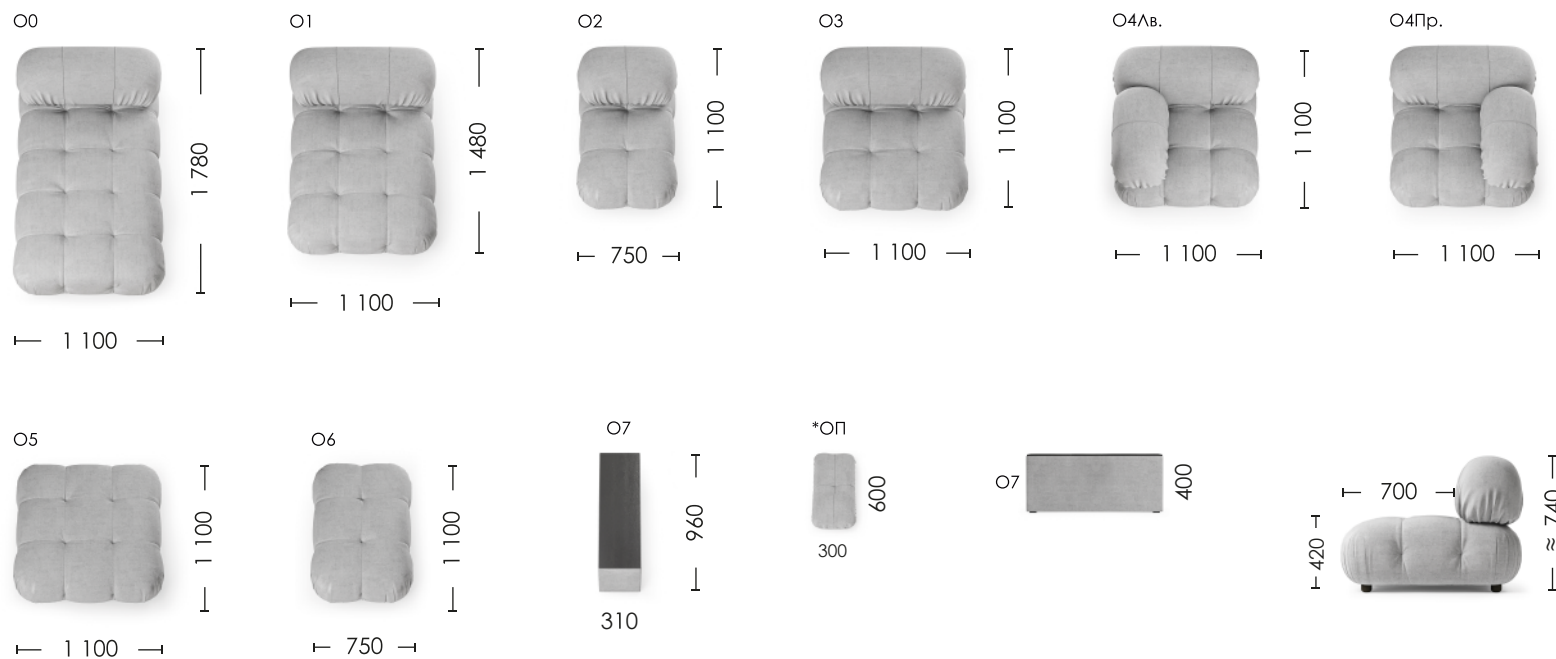

2. Corner placement protects from cold walls and adds coziness.

3. The model comes with a side lift-up mechanism. The spacious compartment provides additional storage space.

TECHNICAL DRAWINGS

N – non-folding
Armrest
Tabletop – veneered MDF

OTTAWA

COMBINATION AND COLOR OPTION

OTTAWA

FRANKOF

Thanks to its impeccable combination of elegant form and functionality, the "Ottawa" not only catches the eye but also offers unprecedented spacious comfort. The design blends refined aesthetics with clearly defined lines.

The flexible arrangement of modules sparks creativity and provides endless versatile solutions for any project. Whether two-sided, corner, straight, U-shaped, or simply as separate pieces — you can combine them as you wish.

A laptop and phone can be placed on the special custom table module. Its tabletop is covered with natural oak veneer, while the sides are upholstered in fabric.

The choice of veneer and fabric colors offers numerous options for creating the perfect interior for your living room, office, or kitchen-studio.

The "Ottawa" offers an entirely new experience of using upholstered furniture. At the same time, its decisive advantage is that the quality hidden beneath the fabric fully matches its striking appearance.
