# CALMO

The CALMO mattress combines advanced materials for comfort and support with technologies designed to help maintain a comfortable sleeping microclimate.

The Aqua Memory Gel layer with a thermoregulating effect adapts to the body's contours while helping to maintain a pleasant surface temperature throughout the night. Natural latex adds resilience, elasticity, and enhanced comfort, making it easier to find a comfortable sleeping position.

The Pocket Spring system provides even weight distribution and targeted support for every part of the body, helping promote proper spinal alignment throughout the night.

**FRANKOF**

An elastic foam base enhances the mattress's orthopedic performance while increasing the durability and stability of the overall construction.

# SANTERO

The SANTERO mattress combines Memory Foam, natural latex, and an independent Pocket Spring system to deliver exceptional comfort and optimal body support throughout the night.

The combination of Memory Foam, natural latex, and an Extra Soft comfort layer helps distribute body weight evenly, reduce pressure points, and create ideal conditions for truly restorative sleep.

**FRANKOF**

The independent Pocket Spring system provides targeted support to every part of the body, promoting proper spinal alignment and lasting comfort throughout the night.

**FRANKOF**

# TREVO

The TREVO mattress combines a comfortable sleeping surface, balanced orthopedic support, and reliable body support for a restful night's sleep.

The Extra Soft foam layer creates a plush, comfortable feel and helps the body relax more quickly after a busy day. The independent Pocket Spring system distributes body weight evenly while providing targeted support to every part of the body.

An elastic foam base reinforces the stability of the mattress construction and enhances overall sleeping comfort.

**FRANKOF**

The double-quilted knitted fabric cover promotes better airflow, helps wick away moisture more effectively, and provides an extra layer of surface comfort. Thanks to its dual-firmness design, the mattress allows you to choose the side that best suits your comfort preferences.
