TORINO

SOFA

FRANKOF

We live in a world where everything always moves fast around us. Work, meetintgs, social media and deadlines. This is why our homes become a place where we want to truly rest.
This is why we created Torino - our new, multifunctional sofa from FRANKOF.
FRANKOF

TORINO SOFA

THE DESIGN STANDS OUT WITH IT'S MONOLITHIC SILLHOUETTE, WITH NO PROTRUDING ELEMENTS OR UNNECESSARY GAPS. The voluminous segmentation of the back seats and backrests, defined by decorative stitching, create a sense of softness not only to the touch but also visually. **"Torino" looks soft, plush and inviting.**

FRANKOF

TORINO

"Torino" is a modular sofa that adapts to different usage scenarios.

It's key feature is an «Easy Motion» mechanism.

FRANKOF

We have maintained the ergonomic “within arm’s reach” design of the mechanism: the control button is positioned on the side panel, making it easily accessible and convenient to use.

The user doesn’t need to bend down, look for a remote control, or extract any physical effort.

*straight sofa

*corner sofa

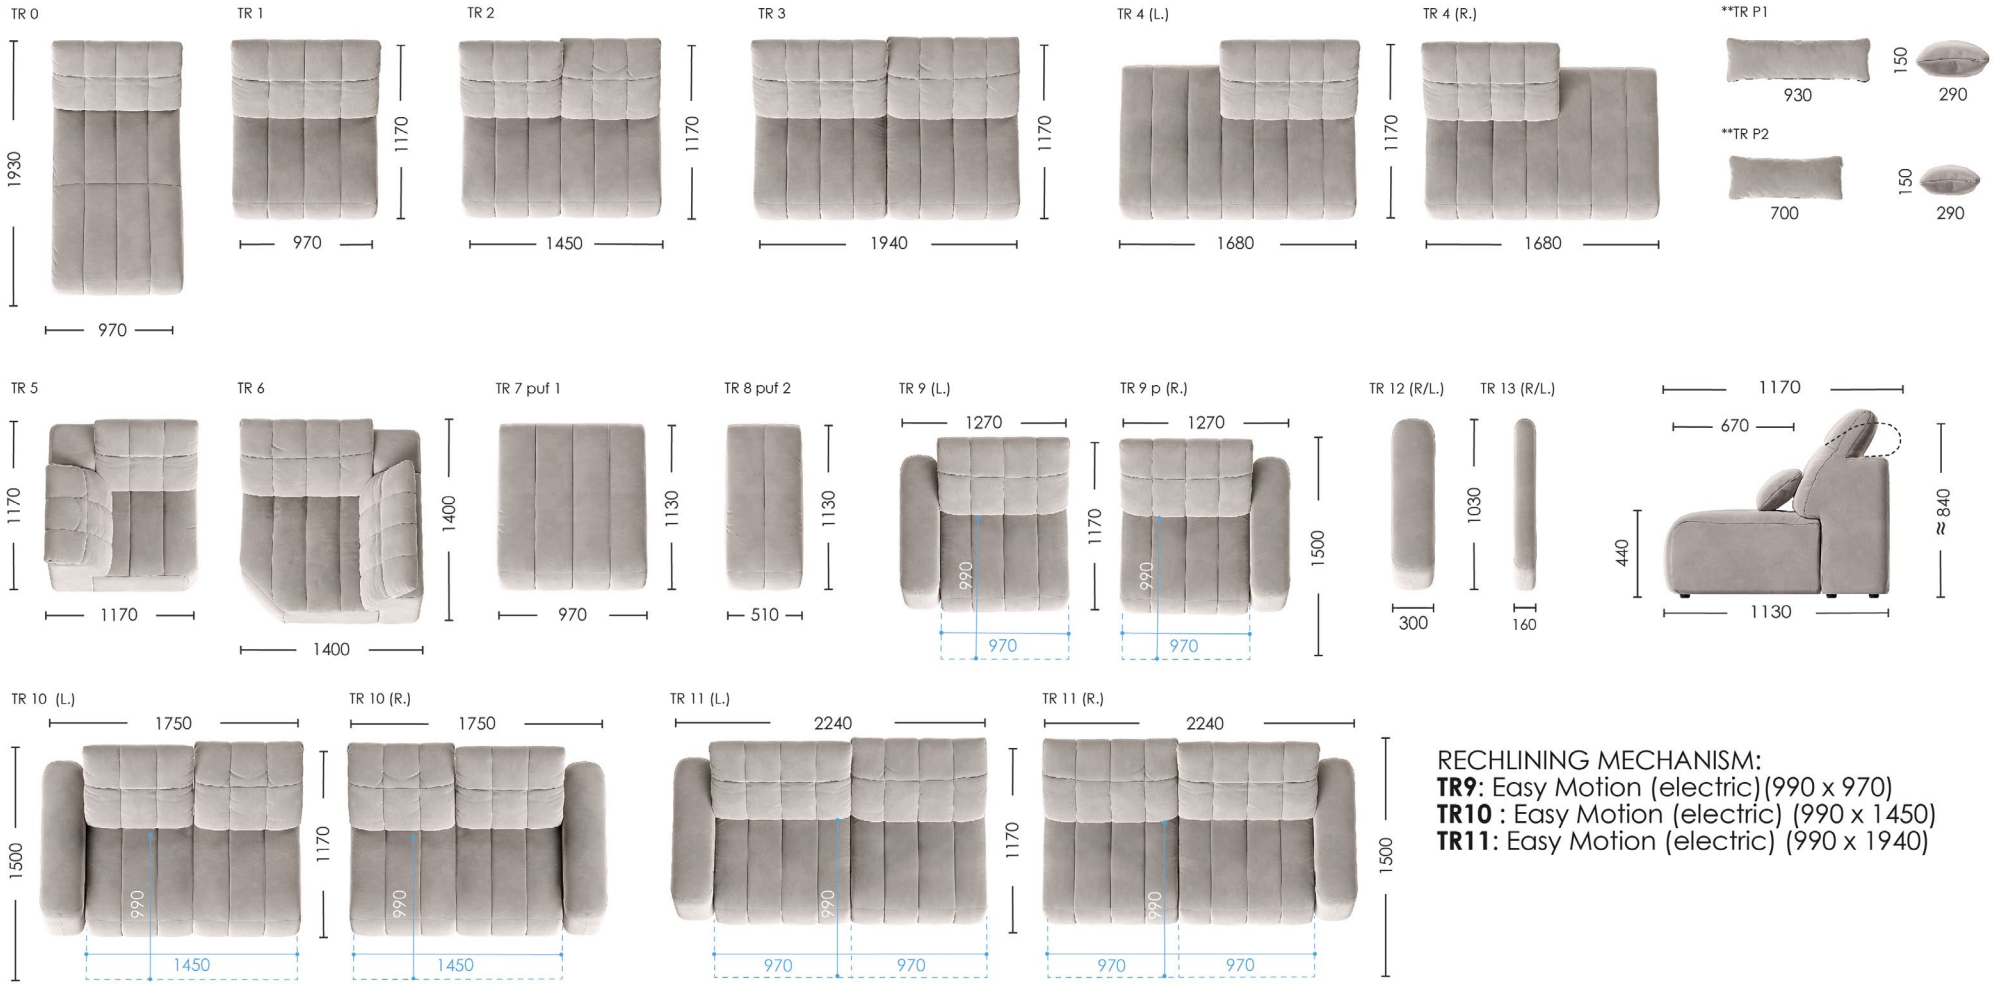

*u-shaped sofa

This is a concealed, **intellectual sofa transformation system**, which smoothly extends the seat forward with the help of a quiet motor (actuator), **increasing the seating depth at the touch of a button, which is located on the side panel**.

DIAGRAMS AND DIMENSIONS

RECHLINING MECHANISM:
TR9: Easy Motion (electric)(990 x 970)
TR10 : Easy Motion (electric) (990 x 1450)
TR11: Easy Motion (electric) (990 x 1940)

*Note: Modules TR9, TR10 and TR11 can't be standalone units and feature a relaxation function (adjustable seat depth for a deeper seating position)

**The TR P1 and TR P2 cushions aren't included in the set

FRANKOF

The Torino sofa's thoughtful ergonomics are also reflected in it's adjustable headrests. **A ratchet mechanism with fine-tuned adjustment allows you to find the ideal reclining angle, adapting to your height and seating position.**

The frame is made from durable, environmentally friendly materials, including softwood timber, plywood, and E1 emission-class particleboard. Sinuous springs provide support and resilience, while polyurethane foam ensures softness and comfort. The Torino cushions are filled with polyester fiber balls.

MODULE VARIATIONS

TR12 (L.) + TR11 (R.)

TR12 (L.)+ TR2 + TR8 + TR0 + TR12 (R.)

TR13 (L.)+TR1+TR13 (R.)

TR12 (L.)+ TR 2 + TR P2 + TR0 + TR P1 + TR12 (R.)

TR13 (L.) + TR3 + TR7

FRANKOF

“Torino” is a sofa designed for true relaxation – a place you’ll want to return to every day.
With Torino, you’ll experience exactly what we set out to create above all else – the feeling of finally being home.
